Texas Company rose four points, presumably in consequence of the 200 per cent. dividend recently declared by one of its subsidiaries. United States Steel served more than any one stock to stabilize the market, being freely absorbed in blocks of 1,000 to 8,200 shares at 86 1-2 to 87 1-8, closing as a mere fraction under its best in the face of continuous profittaking. Steel contribution of about 60,000 shares represented approximate by 12 per cent, of the day's business. Some of the recently weak municipals and equipments were better by one to three points, with as much for the prominent motor shares. Shipping stocks were in steady demand, United Frult making an extreme gain of more than three points. There was a renewal of last mouth's inquiry for the better known sugar stocks and a fair degree of activity and strength was shown by Sears-Roebuck, Weelworth and May Department Stores. Transcontinental shares led the railway division, notably Canadian Pacific, "Soo" and Union Pacific, at advances of one to almost three points, Grangers and Reading and Norfolk and Western contributed to the relatively modernie output of other rails. Total sales amounted to 480,000 shares. Londs were firm, with a broad demand for municipal issues, Anglo-French fives and Rock Island debentures. Total sales, par value, aggre-	3
